EDUCATION

Shanghai International Studies University B.A. in Network and New Media | GPA:3.78/4 2022-2026

Honors: • Mathematical Contest in Modeling (MCM) – Finalist (Top 1% globally), 2025 ; Asia-Pacific Mathematical Contest in Modeling – Second Prize, 2024 ; Outstanding Academic Scholarship (7 consecutive semesters)

RESEARCH EXPERIENCE

Knowledge Graph-Based AI Content Verification System | Project Lead Feb 2025 – Present

- Designed a knowledge-graph framework to detect hallucinations in AI-generated news using entity–relation modeling.
- Defined evaluation metrics for entity extraction and relational reasoning; contributed to 1 patent application and led technical discussions with industry partners.

Elevator Advertisement Recommendation System | Project Lead Sep 2023 - Jul 2024

- Led design of an AI-based elevator advertisement recommendation system using computer vision for user segmentation.
- Built ad-matching logic; achieved 85.99% recognition precision with ~24 ms latency; first author at BDAI 2024 (EI indexed).

Public Restroom Signage Usability Study | Project Lead Feb 2024 - Jul 2024

- Conducted field research across 200+ public restrooms in Shanghai, collecting image data and user feedback.
- Performed data cleaning, statistical analysis, and visualization; Published on The Paper's Pengpaihao platform; 2,500+ views and ranked No.1 Data Journalism piece by the editorial team.

“Awake at Midnight” Integrated News Product | Content Creator & Operations Feb 2024 - Jul 2024

- Planned, produced, and edited multimedia content for WeChat Official Account and Douyin.
- Published 7 WeChat articles and 17 short videos, generating 50K+ total impressions; top article reached 8K reads with an average 5% engagement rate (likes/comments).

CalmWave – Mental Health Application | Product Planning and Design Sep 2023 - Jan 2024

- Conducted 20+ user interviews and 10+ competitor analyses to identify mental-health needs among university students.
- Delivered PRD and 42 Axure prototypes, improving core task completion efficiency by 20% through usability testing.

PROFESSIONAL EXPERIENCE

Yangtze Delta Region Institute of Tsinghua University, Zhejiang | AI Research Intern Jan 2025 – Mar 2025

- Conducted literature reviews on AI application scenarios and supported feasibility analysis for research initiatives.
- Drafted bilingual technical reports and patent documents, assisting milestone tracking and cross-team coordination.

SenseTime | Business Operations Intern Jul 2024 – Sep 2024

- Organized client data, producing 20+ reports and 50+ product delivery workflows supporting customer management.
- Coordinated a 200+ participant internal conference, handling logistics, photography, video editing, and copywriting.

SKILLS

Languages: English (CET-4:584, CET-6: 568, TEM-4: Excellent); Mandarin (Native)

Tools: Python, C, SQL, Axure, XMind, Visio,HTML5, Office, PS, PR, Ai
